RATIONALE

Nowadays international art education advocates the strengthening of the nature and value of various disciplines. Through art, education cultivates the holistic individuals who are emotional, rational, and creative. In addition, the 12-year Compulsory Education which is based on the philosophy of nurturing learners that are “spontaneous,” “interactive,” and “altruistic,” further strengthens the core quality of “art and aesthetic.”

MISSION

International Arts Olympiad-Taiwan, R.O.C. is a global educational event focusing on arts and aesthetics. Based on the core concept of “students’ artistic and aesthetic values,” it is hoped that through cultural exchanges and collaborative works between different countries, both domestic and international students will gain new insights. We hope to strengthen students’ global perspective and increase the opportunities for personal growth through this unique experience, thus expanding their visions on art and aesthetic education.
